A kitchen without a gas range can blot out the blue of summer skies with its heat and drudgery. Estate ranges have with fresh air, their scientific construction ventilated ovens insure perfect heat regulations, the key to faultless baking. A short cabinet of superior design including large hot-cupboard, is an efficient range in every particular, a "kitchenette" compact yet complete, and those sturdy 3 burner cookers are in our show-room ready for inspection. It's a wise plan to install a gas range before the scorching weather comes, avoiding disappointment and possible suffering, as Franklin put it "BE ON TIME."
